PROFESSIONAL SUMMARY

Results-driven CRM & RevOps Specialist with 5+ years delivering end-to-end CRM architecture, sales automation, and AI-powered workflows across HubSpot, GoHighLevel, and leading automation platforms. I translate complex business requirements into clean, scalable systems — from pipeline design and data governance to multi-platform automation using n8n, Zapier, and Make. Equally strong as a hands-on implementer and a client-facing consultant, I help businesses build the CRM foundations, reporting clarity, and automation infrastructure they need to grow.

CORE COMPETENCIES

HubSpot CRM Admin	GoHighLevel (GHL)	n8n / Zapier / Make
CRM Architecture & Design	Sales Pipeline Design	AI Workflow Engineering
RevOps Strategy	Data Management & Hygiene	Automation QA & Testing
Lead Scoring & Segmentation	Analytics & Dashboards	CRM Training & Docs
API & Webhook Integration	Cold Outreach & SDR Design	Client-Facing Consulting

PLATFORM & SKILL DEPTH

◆ HubSpot CRM & RevOps

- Portal setup, custom properties & objects, page layouts
- Lifecycle stages, lead status, deal pipeline & stage-gating
- Sales, marketing & operations automation workflows
- Lead scoring, segmentation logic & sequence planning
- CRM governance, permissions, required fields & deduplication
- Dashboards for sales, marketing, revenue & attribution
- CRM audit, needs analysis, migration planning & training

◆ GoHighLevel (GHL)

- Account/sub-account setup, white-label & snapshot deployment
- Pipeline, campaign, SMS/email/WhatsApp & ticketing setup
- Smart Lists, referral automation & HIPAA-style intake design
- DNS, email deliverability setup & client walkthroughs

◆ Automation & AI Workflows

- n8n — self-hosted pipelines, custom nodes & error handling
- Zapier — multi-step Zaps, paths, filters & webhooks
- Make — complex multi-module scenarios & iterators
- AI outreach: RAG-based email content, OpenAI API, SerpAPI
- Supabase vector stores, Postgres support, batch processing
- AI sales call analysis, drip-feed & scaling strategies

◆ Sales, Outreach & Data

- Cold email/LinkedIn/calling sequence design & SDR process
- ICP definition, lead qualification & prospect list segmentation
- CSV analysis, data mapping, field mapping & import management
- Deduplication, record classification & data validation workflows
- Reply.io → GHL transition, duplicate enrollment prevention

PROFESSIONAL EXPERIENCE

Independent CRM & Automation Consultant

Dec 2020 – Present

Project-Based Client Engagements | HubSpot • GHL • n8n • Zapier • Make • Apollo • Smartlead • Clay • Seamless.ai

Delivered full-cycle CRM, RevOps, and automation solutions across 14+ engagements in SaaS, healthcare, real estate, energy, manufacturing recruitment, and digital marketing

- Architected HubSpot portals from scratch — properties, pipelines, lifecycle stages, lead scoring, sequences, and governance policies aligned to each client's sales motion
- Designed and deployed AI-powered automation workflows in n8n connecting OpenAI, SerpAPI, Supabase, and CRMs for RAG-based outreach content generation and batch lead enrichment
- Built GoHighLevel sub-accounts with white-label setups, snapshot deployment, SMS/email/WhatsApp campaigns, smart lists, and HIPAA-style referral intake workflows
- Created multi-platform Zapier and Make automations linking CRMs to billing, e-commerce, communication, and project management tools via webhooks and REST APIs
- Developed executive-facing dashboards for pipeline health, revenue attribution, sales activity, and funnel performance using HubSpot's reporting suite
- Led CRM migrations with full data mapping, deduplication strategy, field normalization, and governance documentation; managed import QA and post-migration validation
- Wrote client-facing proposals, SOPs, workflow documentation, QA checklists, and conducted hands-on training and walkthroughs for HubSpot and GHL

Clearbox Strategies

Feb 2020 – Jan 2024

HubSpot Administrator | 4-Year Tenure

- Owned full HubSpot CRM administration — contacts, companies, deals, workflows, sequences, and marketing assets across a 4-year engagement
- Built and maintained multi-tool automations using HubSpot Workflows, Zapier, and ManyChat for lead nurturing, follow-up, and re-engagement campaigns
- Created sales and marketing reports and dashboards tracking pipeline health, ad performance, channel ROI, and revenue attribution
- Supported business development via prospecting campaigns, tradeshow preparation, and transactional lead opportunity management
- Enforced CRM data governance — routine audits, deduplication, segmentation, data hygiene policies, and sensitive data handling procedures
- Tracked and analyzed leads and revenue across paid, organic, and referral marketing channels to inform budget decisions

ADDITIONAL CAPABILITIES

 Proposal & Client Communication • Scope writing & fixed-scope planning • Discovery questions & client onboarding docs • Meeting recaps, MOM & stakeholder comms • Client-facing technical explanation	 Project & Technical Leadership • Phased project planning & roadmap creation • QA of workflows and CRM systems • SOP writing & step-by-step documentation • Cross-functional coordination • EOS quarterly planning support
